

Safety Rules and Regulations Committee

February 2020 Report

Members: Kathleen Nakos, Carol Giragos, Mary Jo Ammon and Mendy Hyde

At the last meeting, the Board voted to allow resident street parking except from 7pm to 7am. However, before being enforced, the Board tasked the Safety Committee to do the following and make recommendations to the Board at the next meeting:

Develop a policy for post orders for a placard system for non-resident RFID holders to be able to park overnight.

Develop an application for residents with RFID's that need to park overnight on the street (e.g. those households with multiple cars due to children). This application would be for permission for overnight parking.

The Safety Committee is met the week of 2/10/20 to develop these recommendations.
